MODERN TOWER CHIMES

(Played by Organist from Electric Keyboard)

Inventive genius has made the operation of Modern Tower Chimes as simple and easy as picking out a tune with one finger on the piano. The tone—round, full and velvety—is fully controlled by electrically operated striking actions and dampers which latter prevent all tone intermingling. Cost is moderate. Concerted action will enable US to have Chimes ringing by NEXT Christmas.

THE MEMORIAL SUBLIME

To persons of affluence these modern Chimes present the one most fitting and enduring form of Memorial. Inquiry addressed to J. C. Deagan, Inc., 279 Deagan Building, Chicago (to whom we are indebted for these folders) will bring, without obligation, full information including attractive Memorial Booklet.

FOG DANGERS AND HOW TO DISPEL THEM.

Isaiah 50:10 Who is among you that walketh in darkness and hath no light? Let him trust in the name of the Lord and rely upon his God.

Intro. 1. Capt. Giles forced to return on account of fog.
2. Auto driving in the fog at night.
3. Ships in the fog.

4. Another kind of fogthat endangers minds and characters and souls. Xn voyagers often run into such fog. It settles down dark, damp and dismal, wrecking the faith and spiritual life of many who otherwise whould have sailed safely into the harbor of eternal life.

I. Truth itself becomes lost to men in a fog.

1. If anything in this world should be clear and luminous it is Christian Teaching. The Way of Salvation as pointed out to us in the Bible is as plain as day, and a child may read it and understand.

2. But when men begin to theorize about God's plan of salvation; when scholars separate the Bible into history and poetry, folk-lore, legend and myth; when theologians an philosophers read their own theories into it, for many ~~it~~ Salvation and the Bible become a dense fog

II. Christ Himself becomes veiled in a mist and is lost to many because of it.

1. As soon as we ask certain questions about Him he seems to grow dim to many.
Did any prophecy ever refer to Christ?
Was he conceived by the Holy Ghost and was he born of the virgin Mary?
Was he God manifent in the flesh? When Jesus was a child did he realize fully who he was and what his mission was?
How easy it is to create a fog for ourselves ~~it~~ in which we easily lose ourselves!

2. Other fog-veils that separate Christ from Xns.
Worldly interests, selfish tendencies, indulgence of appetites, definite acts of sin consciously committed. These and many other kinds of fog cause Xns to lose sight of their Christ.

III. We not only lose ourselves, our salvation and our Christ in the fog, but we lose our happiness and joy.

1. Driving thru a dense fog is torment. Living in a spiritual fog is torture to the soul.

When you meet with Xns who have lost the blessedness they knew when first they found their Lord, count on it that they are traveling thru a fog-region of some kind. God and the Bible and Christ are not ~~ppf~~ clear to them.

Cardinal Manning's depressed soul and darkened faith. His visit to the bookstore to get a copy of his own "Faith in God" which he had written yrs before. As he waited a voice from the basement called out, "Manning's Faith in God" all gone." And Manning then realized that what was said was true in a double sense.

IV. How Can We Dispel the Fogs that darken our lives?

1. By refusing to live in them, by living above them.

a. The home in the Sata Cruz Mts. above the fog.

b. Conflicting theories about radio energy-waves passing thru ether. I'm not going to live in the fog of these conflicting tories and refuse to use the radio.

Conflicting toeories about electricity, but I'm not going to refues to use electric lights and electric power.

Conflicting theories about God and the Bible and Christ but I'm not going to lose my soul because of them.

2. By being properly equipped when having to travel thru the fog.

a. The new invention for dispelling fog. An 8 ft tube, 8 inches in diameter, thru which air is blown with terrific blast so as to dispel the fog ahear for hundrends of ft. A lense thru which the pilot can see clearly.

Every Xn should be a fog-dispeller. The earnestness of his purpose, the sure reliance of his faith in God, the hope within him born of fellowship with Christ, his grip on the Word of God and his contact with the Spirit of God ought to surround him with an atmosphere of clarity and cheer as not only

to protect himself on his way thru the fogs of human trials, but as will also give light and direction to other who are lost in the fog.

b. Every Xn should keep prepared for fog by constant faith and practice.

1. The deep cut in the callouse that did not bleed the scratch on thin skin that bled instantly

2. Pewter unused will quickly tarnish. The communio set and baptismal bowl. Precious pewter put awa

Use your faith and it will keep bright. Use your God and Christ and they will not fail you. Use your Bible and its teachings will be a lamp ubto your feet and a light unto your pathway when you must travel thru the fogs of life.
